OBJECTIVE

Full-stack builder with experience shipping React Native apps, AI-powered features, and design/growth work — looking to move fast across product and engineering at an early-stage startup. Comfortable across the stack, from mobile to backend to content pipelines, with a strong bias for execution.

EDUCATION

SIES Graduate School of Technology

BE in Artificial Intelligence and Machine Learning

Navi Mumbai, India

2022 – 2026

- Coursework: Computer Vision, NLP, Deep Learning, Data Visualization, Web Technologies, AI/ML, Game Theory

PROJECTS

Tune CLI | *CLI, Spotify API, IDE Extension*

March 2026

- Built and published a live IDE extension that lets Spotify Premium users control music playback directly from the terminal inside any IDE.
- Currently live and available for developers — bridging the gap between dev workflow and music control without leaving the editor.
- github.com/rithvikshetty/DevTune

Personal Portfolio | *Next.js, TypeScript, Framer Motion*

March 2026

- Built a premium, motion-first portfolio showcasing full-stack engineering, interactive UI/UX design, and AI-driven initiatives.
- Focused on high-performance animations and seamless user experience using modern web technologies.
- rithvikshetty.in

TRCT [The Run Club Thane] | *Next.js 15, TypeScript, Framer Motion, Tailwind CSS 4*

March 2026

- Engineered a high-performance community platform for Thane's largest running movement (3000+ members), utilizing a bold brutalist aesthetic and kinetic typography to drive digital engagement.
- Developed advanced interactive animations, including scroll-linked parallax, mouse-tracking motion backgrounds, and staggered UI reveals using Framer Motion to create a premium "cult-like" digital experience.
- Architected a scalable frontend transition to Next.js 15 and Bun runtime, optimizing Largest Contentful Paint (LCP) and ensuring 100% responsiveness for a media-heavy "Vault" gallery system.
- Implemented a comprehensive SEO strategy resulting in high search visibility for local community keywords and integrated Vercel Analytics to monitor and optimize user conversion paths.
- trct.in

SeaGuard | *React Native, FastAPI, Figma, Twilio*

Sept 2025

- Designed and developed a mobile-first safety app for fishermen featuring weather alerts, real-time navigation support, and SOS automation.
- Won **HackCelestial 2.0** and showcased under ISRO leadership. Team size: 6.
- github.com/rithvikshetty/SeaGuard

PayFikr | *Python, NLP, FastAPI, WhatsApp/Telegram API, Figma*

Nov 2025

- Built an AI-based financial coaching system analyzing spending patterns and income variations, accessible via WhatsApp and Telegram chatbot.
- Designed the full UI/UX and integrated conversational flows for a multi-channel user experience. Team size: 4.

TRCT | *Next.js, TypeScript, Tailwind CSS, Framer Motion*

2024

- Designed and built a production client website from scratch, deployed on Vercel at trct.in.
- Handled end-to-end design, development, and deployment independently.

AutoPharmaX | *Python, scikit-learn, XGBoost, Streamlit*

July 2025

- Built an ML pipeline to predict cancer drug response with an interactive Streamlit app for visual analytics. Team size: 4.
- github.com/rithvikshetty/autopharmax
