SUMMARY

Full-stack engineer and AI/ML graduate (2026) with hands-on experience shipping production web and mobile applications using React Native, Next.js, TypeScript, FastAPI, and REST APIs. Proven track record across agile teams and solo freelance delivery — from a 3,000-member community platform to hackathon-winning apps. Comfortable across the full stack: frontend, backend, cloud deployment (Vercel), and ML pipelines. Strong bias for execution and fast iteration.

EDUCATION

SIES Graduate School of Technology

BE in Artificial Intelligence and Machine Learning

Navi Mumbai, India

Nov 2022 – Jun 2026 (*Expected*)

- Coursework: Computer Vision, NLP, Deep Learning, Data Visualization, Web Technologies, AI/ML, Game Theory

EXPERIENCE

Lupin Ltd

Salesforce & Marketing Automation Intern

Dec 2025 – Feb 2026

Mumbai, India

- Automated lead nurturing and outreach workflows in Salesforce CRM, reducing manual follow-up effort and improving campaign response tracking across multiple product lines.
- Built and optimized marketing automation sequences; analyzed campaign performance metrics (open rates, CTR, conversion) to surface actionable insights for the marketing team.
- Collaborated cross-functionally with sales and analytics teams to align CRM data pipelines with business reporting requirements.

Ion Chemicals

Python Developer Intern

Jan 2025 – Apr 2025

Navi Mumbai, India

- Built and deployed a real-time computer vision anomaly detection system for industrial pipelines using OpenCV and Python, reducing manual inspection effort for the engineering team.
- Integrated the solution into existing workflows via REST API; documented system outputs and presented findings for internal adoption review.

TRCT — The Run Club Thane

Freelance Full-Stack Developer

Mar 2024 – Present

Remote

- Designed and built a full-stack production platform (trct.in) for Thane's largest running club (4,000+ users) — delivered end-to-end: design, backend, frontend, SEO, and Vercel deployment.
- Engineered a scalable backend with user authentication, database storage, and REST APIs to serve 4,000+ registered users across the platform.
- Built an e-commerce module for official run club merchandise with Razorpay/Stripe payment gateway integration, order management, and transactional data persistence.
- Migrated frontend to Next.js 15 and Bun runtime; implemented scroll-linked animations and a media-heavy Vault gallery with 100% responsiveness across devices.
- Implemented SEO strategy achieving high search visibility for local keywords; integrated Vercel Analytics to monitor and optimize conversion paths.

Irsya

Design Intern

Sep 2023 – Jan 2024

Mumbai, India

- Led brand identity, visual communication, and marketing materials for a fashion startup's initial product launch.
- Managed social media presence and product styling, supporting the startup's early market entry.

PROJECTS

- OfficeFlow** | *Next.js, TypeScript, MongoDB, Twilio, REST APIs, Tailwind CSS* 2026
- Built a WhatsApp-based office feedback intake system with QR scanning, Twilio webhook integration, MongoDB logging with deduplication, and admin dashboard with filters, pagination, and modal views.
 - Designed and deployed responsive UI with Shadcn UI and Tailwind CSS; implemented end-to-end data flow from WhatsApp message ingestion to structured database storage.
- DevTune CLI** | *Node.js, TypeScript, Spotify API, VS Code Extension API* Mar 2026
- Built and published a VS Code extension and npm CLI package enabling Spotify Premium music control directly from the IDE terminal — 500+ downloads on the npm registry.
 - Integrated Spotify Web API with OAuth token management; published to VS Code Marketplace and npm. github.com/rithvikshetty/DevTune
- SeaGuard** | *React Native, FastAPI, Python, Twilio, Figma* Sep 2025
- Designed and developed a cross-platform mobile safety app for fishermen with real-time weather alerts, GPS navigation support, and SOS automation via Twilio.
 - Won **HackCelestial 2.0 Most Product Readiness Award** (team of 6); presented before ISRO leadership. github.com/rithvikshetty/SeaGuard
- AutoPharmaX** | *Python, PyTorch, scikit-learn, XGBoost, FastAPI, Streamlit* Jul 2025
- Developed a multitask deep learning system for cancer drug response and synergy prediction using ensemble ML (XGBoost, scikit-learn) on GDSC2 dataset; built FastAPI backend and Streamlit analytics dashboard.
 - Co-authored IEEE conference paper on the system. Team of 4. github.com/rithvikshetty/autopharmax
- Personal Portfolio** | *Next.js, TypeScript, Framer Motion, Vercel* Mar 2026
- Built a motion-first developer portfolio with 3D tilt effects, Bento Grid layouts, and high-performance animations. Deployed on Vercel. rithvikshetty.in

POSITIONS OF RESPONSIBILITY

- Secretary, Technical Team** 2025 – 2026
SIES GST
- Led organization of ByteCamp'25/26, a national-level hackathon with 2,400+ registrations and 40 finalists; coordinated technical events, workshops, and mentorship for the college tech community.
- Design Lead** 2025 – 2026
TEDxSIESGST
- Directed the design team in creating promotional graphics, stage visuals, and communication assets for TEDx event.
- Social Media Lead** 2024 – 2025
E-Cell, SIES GST
- Managed social media presence across platforms to drive engagement and event visibility; created and coordinated promotional campaigns.

PUBLICATIONS / RESEARCH

AutoPharmaX — A Multitask Deep Learning System for Cancer Drug Response and Synergy Prediction.)

CERTIFICATIONS

Introduction to Machine Learning on AWS: AWS & Coursera (2025)
Data Analytics Job Simulation: Deloitte (Forage, 2025)
Introduction to Model Context Protocol: Anthropic (2025)
HackCelestial 2.0 – Most Product Readiness Award: Pillai College of Engineering (2025)

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML, CSS, SQL
Mobile & Web: React Native, Expo Router, Next.js, Node.js, FastAPI, Streamlit, Tailwind CSS, Framer Motion
Databases: MongoDB, PostgreSQL, MySQL
AI / ML: PyTorch, YOLOv8, Scikit-learn, XGBoost, Pandas, NumPy, OpenCV
APIs & Integrations: REST APIs, WhatsApp API, Twilio, Telegram API, Spotify API
DevOps & Tools: Git, GitHub, Vercel, Docker
AI Dev Tools: Claude Code, Cursor, v0
Design: Figma, Adobe Illustrator, Photoshop

LANGUAGES

English (Proficient) | Kannada (Native) | Tulu (Fluent) | Hindi (Fluent) | Marathi (Fluent)
