SUMMARY

Frontend developer and final-year AI/ML engineering student (Jun 2026) with hands-on experience building and shipping production React and Next.js applications. Sole frontend developer on trct.in, a live platform with 4,000+ registered users. Published developer tooling (DevTune) with 500+ installs on npm and VS Code Marketplace. Comfortable with TypeScript, responsive web design, component-based architecture, API integration, and Figma-to-code workflows. Seeking a frontend internship or entry-level frontend developer role in a product team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, Python
Frontend Frameworks: React.js, Next.js 15 (App Router, SSR, SSG, ISR), React Native, Expo Router
React: React Hooks, Component-Based Architecture, Reusable Components, Context API
Styling & UI: Tailwind CSS, Framer Motion, Shadcn UI, Responsive Web Design, CSS Animations, Cross-Browser Compatibility
Performance: Core Web Vitals, Web Performance Optimization, Lighthouse
Backend & API Integration: Node.js, FastAPI, REST APIs, NextAuth, JWT, OAuth2
Databases: PostgreSQL, MongoDB, MySQL
Payments & Integrations: Razorpay, Stripe, Spotify Web API, Twilio, WhatsApp API
Tools: Git, GitHub, Version Control, Vercel, Figma, UI/UX, Adobe Illustrator, Linux

EXPERIENCE

TRCT — The Run Club Thane

Freelance Frontend Developer

Mar 2024 – Present

Remote | [trct.in](#)

- Sole frontend developer for trct.in, a live Next.js 15 production platform serving 6,000+ registered users — full ownership from Figma designs to Vercel deployment.
- Built a responsive, mobile-first UI with Tailwind CSS and Shadcn UI; developed reusable React components (cards, gallery, forms, modals) used across 8+ pages; verified cross-browser compatibility across Chrome, Edge, Firefox, and Safari.
- Migrated to Next.js 15 App Router with SSR/SSG for optimised page loads; integrated Razorpay payment gateway with multi-step checkout UI, order confirmation, and error handling flows; added Framer Motion scroll animations throughout.
- Improved Lighthouse SEO score from 65 to 100 on desktop through structured data, meta tags, and Open Graph images; tracked 5,000+ monthly page views via Vercel Analytics to identify and fix drop-off points.

Ion Chemicals

Python Developer Intern

Jan 2025 – Apr 2025

Navi Mumbai, India

- Built a computer vision anomaly detection pipeline for industrial pipelines using OpenCV and Python; delivered system outputs and findings to the engineering team for internal review and adoption.

PROJECTS

DevTune | TypeScript, Node.js, VS Code Extension API, Spotify Web API, OAuth2

Mar 2026

- Built and published a VS Code extension and npm CLI package for Spotify playback control inside the IDE — **500+ installs** on npm and VS Code Marketplace within weeks of release.
- Implemented OAuth2 PKCE auth flow with automatic token refresh, a typed CLI interface, and real-time playback state syncing via the Spotify Web API — written in TypeScript with full type coverage.
[github.com/rithvikshetty/DevTune](#)

SeaGuard | React Native, Expo Router, FastAPI, Twilio, Figma

Sep 2025

- Designed and built a cross-platform React Native safety app for fishermen — UI included real-time weather alert cards, an interactive GPS boundary map view, and a one-tap SOS screen with Twilio SMS dispatch.
- Won **HackCelestial 2.0 Most Product Readiness Award** (200+ teams, team of 6); presented live demo before ISRO leadership. [github.com/rithvikshetty/SeaGuard](#)

AutoPharmaX | *Python, PyTorch, XGBoost, FastAPI, Streamlit*

Jul 2025

- Built a cancer drug response prediction system using ensemble ML on the GDSC2 dataset; developed a Streamlit analytics dashboard as the frontend for visualizing model outputs. Co-authored IEEE paper (submitted, 2026).

EDUCATION

SIES Graduate School of Technology

Navi Mumbai, India

BE in Artificial Intelligence and Machine Learning

Nov 2022 – Jun 2026 (Degree Awaited)

- Relevant Coursework: Web Technologies, Data Structures & Algorithms, Computer Vision, NLP, Deep Learning
- Joint Secretary, Technical Team — Co-organized ByteCamp'25/26, national hackathon with 2,400+ registrations
- Design Lead, TEDxSIESGST (2025–2026)

CERTIFICATIONS & AWARDS

HackCelestial 2.0 — Most Product Readiness Award: Pillai College of Engineering (2025), 200+ competing teams

Introduction to Machine Learning on AWS: Amazon Web Services & Coursera (2025)

Data Analytics Job Simulation: Deloitte via Forage (2025)
